The Spirit of Divine Interception: Avoiding Disasters, Embracing Wealth, and Perfecting Your Spiritual Insight

I. A Parallel Universe

- A. The things which are **seen** (natural technologies) are based on the template of things that are **invisible** (spiritual technologies).
- B. We as humans live in a parallel universe. (Matthew 22:23–29)
 - 1. We understand the natural world through use of our five senses.
 - 2. We understand the spiritual world through the sixth sense, the technology of faith.
- C. Parallel: “Aligned side by side.”
 - 1. Our earthly existence is a carbon copy of a higher life borrowed from the spirit world.
 - 2. We are actually spirit beings having a body experience.
 - 3. Living life as if only the natural body experience is real means we won’t be prepared for diabolical intentions, demonic messages, or even hell.
 - 4. Principles embedded in the fabric of creation govern how life is to work.
 - 5. The world we live in becomes the world of effect: What’s been produced in the spirit is actualized and manifested and felt on earth.
- D. **Divine interception: A powerful, dependable law of the Kingdom.**

1. We can depend on the laws of the spiritual world as much as we can depend on the laws of the world, the laws of nature.
 2. When the world of the spirit touches the natural world even for a short moment, something supernatural happens in the intersection. **Example:** Jesus, Elijah and Moses at the Mount of Transfiguration.
- E. **Grace:** The God-given ability to operate in the now and in the spirit at the same time. God intercepts our mistakes long before they can bear fruit.

II. Disasters in Commerce

- A. The marketplace: There's no real cultural transformation without it.
- B. Disasters in the marketplace are directly connected to the *lack* of divine interception or of *having missed one*, and consequences can be drastic.
- C. Dr. Myles' calling: To awaken the spirit of the corporate Joseph in the nations.
 1. Leaders must know how to take dominion of the 7 mountains of culture.
 2. One bad business deal can shatter dreams, affect employees and families.
 3. The spirit of divine interception can bring warning and encouragement.
- D. **The spirit of divine interception:** God getting to you before the devil does. (Acts 27:8-12)
 1. **We can be bewitched by our desire for money** and disregard God's voice.
 2. **When God says "Don't do it,"** it doesn't matter how good you are, you'll lose out if you don't listen.
 3. **The enemy sets you up,** sees you disregard God's word to you, waits until you're past the point of no return, then unleashes disaster on you.
- E. **We desperately need to understand** the technology of divine interception. We can avoid the damage and the loss of decisions that are not Spirit-directed.

III. Examine Your Life

- A. **Lenses** dictate and drive our subconscious belief systems.
1. Our subconscious runs our lives.
 2. It's our true beliefs, not just what we say we believe, that actually drive and affect 90% of our decisions.
- B. **Lenses:** How we think about, how we see or think through things.
1. **Many of us were born with** lenses that affected how we saw people or life.
 2. We may color things that don't have color just because we have that bend.
 3. We need God to deliver us from our lenses if they don't line up with His way of seeing things!
- C. **Filters:** How we feel our way through things.
1. **Every person's** worldview is affected and driven by filters they have over their heart.
 2. Jesus might need to wash our filters in order for us to perceive things accurately.
 3. **The more healed in soul a person is,** the more sensitive and powerful are their filters in the Lord's hands to bring forth divine interception.
(Psalm 26:2)
 - a. **Forgiving people** for their trespasses against us can help Jesus wash our lenses.
 - b. Fear as a filter can override a feeling God gives you that tells you it's okay to do something. It causes you to doubt His word.
 - c. A dirty filter can deceive us to think all things are good, when they are not.
 - d. The **traditions of men** can affect our lenses and filters too, making it hard for God to intercept us when we trust traditions more than what He is saying to us.
- D. **Ask the Lord to test you,** revealing your lenses and your life's emotional navigation system. How were they impacted by things you went through?

- E. **Speed can be the key** to avoiding a bullet from the very pit of hell. We need our filters to be razor-sharp, to hear God well and right away when He calls.
